

ROCK POOL MONTH AT DE HOOP MARINE RESERVE: SPECIAL OFFERS

Every month brings a new offering from the team at the De Hoop collection and with warm and sunny days on the horizon, October 2011 is no exception.

The focus this October is on the finely tuned ecosystems of the often unseen and underexplored worlds in the rock pools which dot the shoreline of the De Hoop Reserve.

The 58km shoreline along the De Hoop Marine Reserve offers some of the most spectacular rock-pools. For the entire month of October, we'll be offering rock pool interpretation walks and presentations. Guests can sign up for these walks or could go snorkeling for a unique insight into the world of sea creatures living in these finely-balanced ecosystems, and then welcomed back on shore with a specially prepared picnic basket or fresh Oysters and a glass of Cap Classic sparkling wine.

Bookings essential.

When your exploration is over and your sun-kissed limbs are ready for rest, savour a specially prepared picnic basket or fresh oysters and Cap Classique prepared by the De Hoop team. As always, the rest of de Hoop is at your disposal too: a spectacular collection of fauna and flora to explore and enjoy and delightful accommodation in a variety of traditional Cape cottages and fine lodges.

The Rock Pool celebration offer lasts for the whole month of October. As with most of De Hoop's interesting offers, bookings fill up quickly and early reservations are recommended.

Reservations can be made at 021-422 4522 or res@dehoopcollection.co.za.
